

# Everspin Reports Fourth Quarter and Fiscal Year 2019 Financial Results

Revenue at High-End of Guidance with 54% Gross Margin

Chandler, AZ, March 12, 2020 — Everspin Technologies, Inc. (Nasdaq: MRAM), the market leader in MRAM, today announced financial results for the fourth quarter ended December 31, 2019.

## **Fourth Quarter and Recent Highlights**

- Fourth quarter total revenue of \$9.7 million was up 5% sequentially and at the high-end of guidance
- Ended year with cash and equivalents of \$14.5 million
- Implemented restructuring to accelerate path to profitability
- Achieved second data center OEM qualification of 1Gb STT-MRAM
- Announced development of STT-MRAM for Industrial and IoT applications
- Signed joint development agreement extension with GLOBALFOUNDRIES for development of 12nm MRAM

"We ended 2019 on a strong quarter of progress in a year in which the semiconductor industry faced broad cyclicality, exacerbated by protracted global trade tensions in our core industrial market," stated Kevin Conley, Everspin's President and CEO. "Fourth quarter revenue increased sequentially and was supported by improved costs and reduced OpEx. Revenue was at the high-end of guidance, driven by another quarter of record STT-MRAM revenue and continued growth for Toggle products. Our quarterly loss per share, excluding a one-time restructuring charge, was also well above our guidance.

"Building on our successful spending reductions in 2019, Everspin recently implemented a restructuring plan that fully supports our strategic objectives

while capturing significant savings in 2020, thereby accelerating our path toward achieving cash flow breakeven by year-end. With the confidence we have in our cash position and business outlook, we have suspended use of the at-the-market (ATM) facility we put in place last year.

"Additionally, we continue to meaningfully advance new and existing engagements for our 1Gb STT-MRAM device through a combination of successful customer qualifications and partnerships in the enterprise server and storage ecosystem. Everspin secured an additional data center design win for our 1Gb STT-MRAM and continued to see significant quarter-over-quarter growth in our Toggle MRAM design wins. With this growing pipeline and interest for our expanding portfolio of MRAM solutions, combined with our improved margins, we are increasingly well positioned to drive profitable growth and value for our shareholders."
